

Demetrius Harper

Demetrius Harper was President of DKH Enterprises. **Harper has over 15 years' experience in Information Technology including information systems management and support, software development, and systems integration and architecture.**

Harper attended the University of Colorado at Colorado Springs from 1993-1998 towards an Information Systems degree. **Harper worked as a DBA in the Colorado market for over 15+ years for large corporations such as Oracle Corporation, MCI WorldCom, and Level 3.**

Harper's father and four of his uncles served in the United States military. Like the other IRP Solutions executives, Harper also has a heart for his country. He joined the IRP solutions team because he believed in the CILC software product and because he too wanted to protect this country. DKH Enterprises partnered with IRP Solutions to provide staff augmentation for the development of IRP's Case Investigative Life Cycle (CILC) software suite.
